Opt-out from secondary use of patient identifiable data (*care.data*)

Please could you add the relevant “electronic flags” (*read codes **9Nu0** and **9Nu4***) to my/our medical records, in order to ensure:

that personal confidential information is not uploaded from the GP records to the Health and Social Care Information Centre (HSCIC) via the General Practice Extraction Service (GPES) or other means

that personal confidential information gathered from *any* health and social care setting is prevented from leaving the HSCIC

I/We understand the implications of this request:

that it will not affect the medical care that I/We receive either from the GP surgery or from anywhere within the NHS or the private sector
that this refusal does not in any way prohibit the GP surgery from sharing my/our medical information with other NHS and private services, where necessary, to provide effective clinical care
that I/We can change our mind at any time about this refusal
that I/We will inform you if I/we subsequently decide to opt back into this system

Please list below the names and DOB of those wishing to opt out:

Name	*DOB*
